

Long stroke universal cross cut saw

Heavy duty precision crosscut saw equipped with 5hp saw motor mounted on a rectangular carriage with 8 bearings and interchangeable wear slides. The saw is capable of straight, angled or compound angle cutting. An adjustable aluminium back fence is fitted as standard with the option to fit fence extensions (1000 / 2000 / 3000 / 4000mm lengths) with flip over stops either side of the saw. The saw is fitted with electro-magnetic braking and dust extraction outlets fitted on both the saw and back guards.

special purpose long stroke crosscut for cutting Structurally insulated panels (SIPS)

Designed specifically to meet the requirements of cutting SIPS panels 1220mm wide.

560mm dia TCT saw blade

Straight cutting - 2000mm cutting capacity, 190mm depth of cut.

Angled cutting - 1220mm width of board at 45 degrees, 190mm depth of cut.

Tilted cutting - 2000mm width of board, 145mm depth of cut.

Compound cutting (+/- 45 degrees) - 1220mm width of board, 145mm depth of cut.

Dust extraction 2 off 150mm, 1 off 200mm outlets.

Vertical pneumatic clamps.
