**DOORMATIC**

La macchina esegue contemporaneamente sul pannello la cassa serratura e la lavorazione di qualsiasi cerniera (anuba, scomparsa, pomella, bilico/pivot ecc..)
In base agli opzionali installati.

DOORMATIC

*Doormatic machine processes simultaneously both lock case and hinges seats (anuba, invisible, book, pivot ecc..)
According to installed devices.*

Cerniera pomella
Book hinge

Cerniera invisibile
Invisible hinge

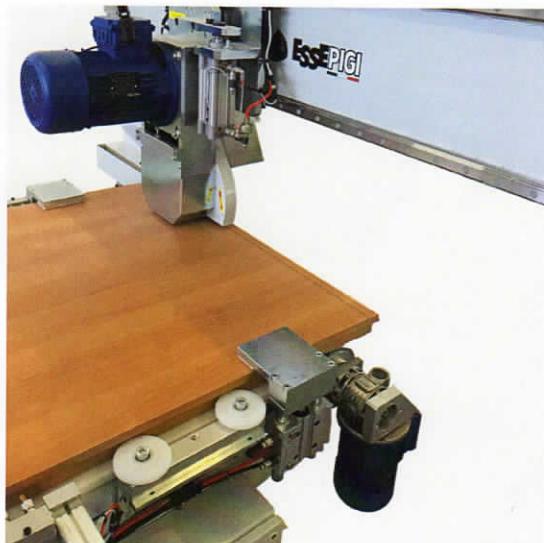

Lavorazione serratura
Lock seat operations

OPZIONAL OPTIONALI

Sede per cerniere a bilico
Hinges seat for pivot

Taglio di pannello
Panel cutting

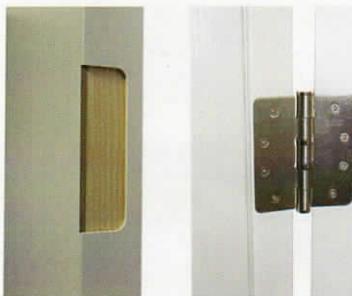

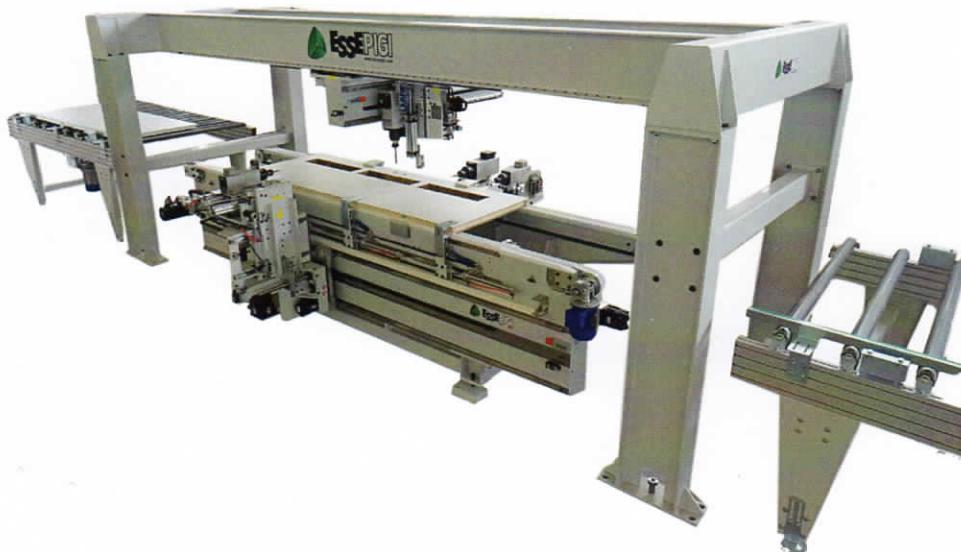

IL MACCHINARIO È PERSONALIZZABILE CON UNA VASTA GAMMA DI OPZIONI.
THE MACHINERY CAN BE CUSTOMIZE WITH A WIDE RANGE OF OPTION.

Cerniera anuba
Anuba hinge

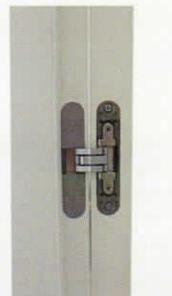

Porte scorrevoli
Sliding doors

Cerniera pomella
Book hinge

Cerniera invisibile
Invisible hinge

Lavorazione serratura
Lock seat operations

DOORMATIC BRIDGE

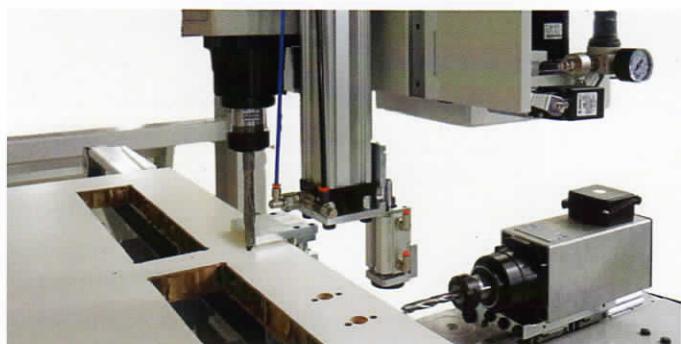

Macchina automatica per lavorazione completa della porta, alta produttività e flessibilità. La macchina Doormatic simultaneamente lavora lato cerniere e lato serratura e la **struttura a ponte** esegue contemporaneamente lavorazioni di sfinestratura e/o pantografatura.

DOORMATIC BRIDGE

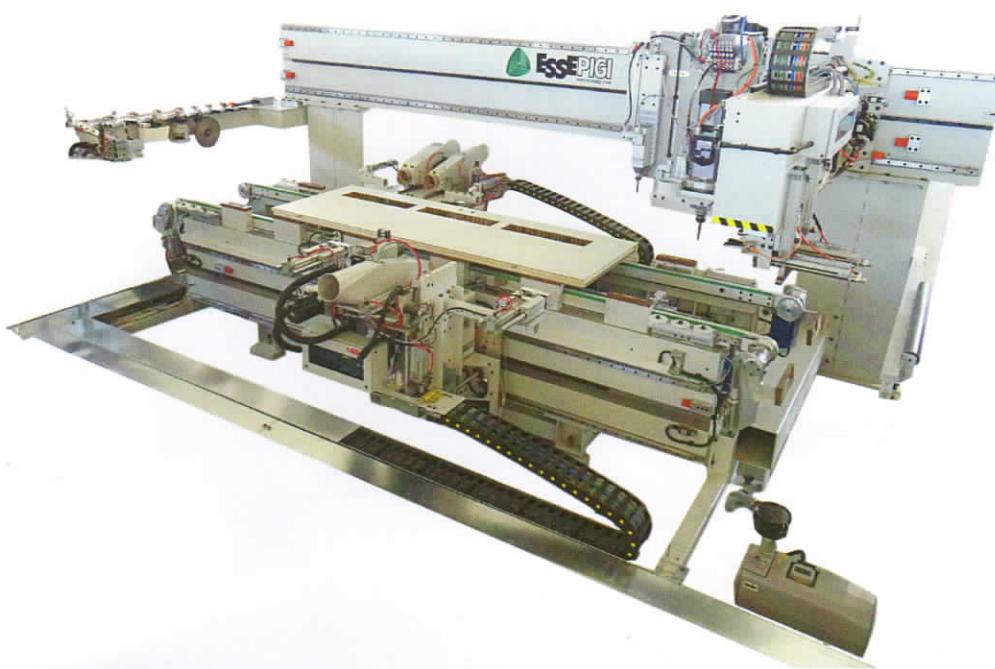

Automatic Machine for complete door processing and high productivity and flexibility. The machine is complete of Doormatic (bottom part) for simultaneous lock and hinges processing and **Bridge unit** (top machine) for CNC operations as window opening.

Lavorazione cerniere, serratura e sfinestratura
Lock, hinges and window opening operations

Lavorazione cerniere, serratura e sfinestratura
Lock, hinges and window opening operations

POMPA DEL VUOTO E VENTOSE
PER BLOCCAGGIO PANNELLO

VACUUM PUMP AND CUPS
FOR PANEL HOLDING

CAMBIO UTENSILI

PERSONALIZED
TOOL CHANGING

DOORMATIC BRIDGE EVOLUTION:

Macchina automatica combinata ad alte prestazioni per la completa lavorazione del pannello porta. Lavorazione simultanea di serrature e cerniere, rifilatura pannello/squadratura/taglio in lunghezza/finestratura e pantografatura.

DOORMATIC BRIDGE EVOLUTION:

High performing special combined machine for complete door panel processing. Doormatic Machine for simultaneous lock and hinges processing and Bridge unit (top machine) for CNC operations ascontouring/squaring/cutting in length window opening and pantograph operations.

OPERAZIONI POSSIBILI - PROCESSING SOLUTIONS

Taglio pannello + sfinestramento
Panel sizing + operation window

Squadratura porta
Countouring with C Axis and dust deflector

Testina flottante
Copy device for milling operations
